GDP during 1990-91 to 1994-95 declining to an average of 1.2% during the period 1995-96 to 1999-2000.

(b) The proliferation of explicit Central Government subsidies has been mainly an on account of expansion of food subsidies from Rs. 2450 crore to Rs. 24200 crore and fertilizer subsidies from Rs. 4389 crore to Rs. 11009 crore during the period 1990-91 to 2002-03.

(c) Government is constantly reviewing the burden of subsidy and its implication on fiscal aggregates. It may be recognised that social and economic compulsions would not allow complete abolition of subsidies. However, Government is attempting to make subsidies transparent, well targeted and efficiently managed.
